My dearest Arthur,

I send you my Titania - if you think her worth having (& if you in your kindness should, very likely other people may not - but) there she is, anyhow, & on Ward's information, her husband too. - If weather & circumstances would serve, I would have at these little folks again - for I feel quite satisfied myself, & they does not question it (he believes he has seen 4) Lows also saw 2 sat. with Dawes;  $8\frac{1}{4}$  in. now at Rugby. - But no doubt many will be incredulous - & I shall have little chance to vindicate myself, for this day fortnight, D.V. we leave this place for Town en route for the Continent: we shall beat the Redford Hotel, Southampton Row, for that night & next morning - not going to down till Tuesday afternoon - & I do hope we may catch a glimpse of you (strangers than mine of Titania!) either evening or morning. I shall have 4 ladies to escort this time. Would that you could transfuse a little of your linguistic ability into me! -

Thank you for Dennis's letter, to your opinion of it -
