

& can wait for the
visits of friends, but
we are old, & can
only count seven months
to months. Do think of
this & try to spare us
a bit of your valued
society if only for a
week. We have had
our prescribed outing
for this year, indeed
it will be probably

a week beyond the
Cherryman's 3 months.
My dear husband is
pretty well when his
heart does not strike
us as upwards - He
would be all the better
for seeing you, & we
both of us feel unable
to bear the thought that
you will not come here.
Please think it over
my time will suit us.
With kind love from
your affectionate old friends
PTO & M. Webb.
