

not sufficiently so - but at present I
c^d not give a positive answer till I
know what they want. ~~I~~ I
suppose I shall hear from them
whether it is one lecture (hardly?)
or a set - or how long a set would
take be be - - I presume they pay.
But there is one serious bother. I don't
think such a thing w^d do without
diagrams - & I have hardly any
big ones for Ex. Hall! Hardly
big ones, some of them, for Ladies'
College's small lecture-room. However,
I won't pitch the parcel over without
a sight of its contents. No Dynamite,

at any rate, I know, if commended by
you.

My wife's kindest love
your affect. friend

J. W. Webb

I thank you much for your offered
hospitality - no small inducement.
