

My dear young friend,
I owe you a letter - & here is a Scrap - but I cannot send more
day especially after being my wife's amanuensis - I must however say
kind I think your treatment of my drawing - to which I am more recon-
ced - & it may please you to know this) from its having been very ill represent-
the Wood Cut - so that it has some little comparative value [expressed by a
action ~~10000000000~~ &c.] While the larger Map which you admired when here is
in very well engraved on Steel - no more now but very best wishes from
LT your very affectionate friend
T.W. Webb
